

Transplant Advocate Association - \$500.00 Graduation Award for June 2017

The Transplant Advocate Association is pleased to announce a \$500.00 award to be awarded to a student graduating from an Eastern Ontario high school in June of 2017.

The Transplant Advocate Association's mission is to provide support, knowledge and encouragement to those touched by organ and tissue transplantation and to inform the public about the benefits of organ and tissue donation.

If you, or someone you know, have been affected by the organ or tissue transplant process as a donor or recipient, you are eligible for this \$500 prize.

To be considered please write a one-paragraph description of how an organ or tissue transplant has affected you. Please submit this to your guidance counsellor before May 2nd, 2017. In turn we ask guidance counsellors to forward submissions to Simon Baron at barons@limestone.on.ca by May 8th, 2017.

If you have any questions, please contact Simon Baron at the email address listed above.

Thank you and good luck!
